Moby Max Basics

Travis Stecher and Jack Dippold

Beginning Steps

Go to site:

http://www.mobymax.com/signin

Teacher Login:

School email address

Teacher Password:

Click "forgot password" link if unknown to have one sent to your email address

Setting Up Class Roster

- After successful sign in click on the roster icon

  Roster

- Two options to register your class
  - Register New Student (allows one at a time)
  - Bulk Register
    - Option 1 is computer generated
      - More suited for older students
    - Option 2 is user generated
      - Better for younger students

Student usage

- Students will enter the name of their school when reaching the login screen
  - Once in:
    - Students click on the icon of the subject desired
    - All subjects except for writing, stories and test prep
      - Students will take a pre-assessment
      - Tests when end when assessment is complete
    - Lessons will be assigned at completion of test
      - According to test results

Checking Students' Progress

- Click on the icon you want to see progress for
- One option is to select tabs on the top of the screen for subjects
- Another option is to select the actual student's name you want to check on

Assigning lessons/tests

- Click on the icon for the subject desired
  - Go to the lessons tab
    - Click on assign lessons
    - When there, you can assign by individual students or groups
      - Not all subjects have lessons to assign
  - Go to placement tab
    - Check the box next to the student's name that says "Assign new test"

Helpful Tools

Shows how much time a student has spent on different subjects and alerts you to problem areas

Gives opportunities for communication between teacher and class

Access to printable worksheets separated by grade or common core standard

Student response system (might be more helpful if students have 1:1 technology) generated by teacher or computer questions
